		<p><i>I being appointed Enumerator for the locality of Buckland Standen and was and requested to make myself thoroughly acquainted with the limits of my Enumeration District, I am well acquainted with the District being a resident in that locality for thirty three years I have drawn up an account thereof as follows</i></p> <p><i>Standen and was am completely bogged up from any other part of the County of Bellechopsa for want of a road of communication through Buckland to St. Germain if there was a road of communication between the 2 and 3 rangs of Buckland to intersect the highest road in the parish of St. Germain it would shorten the distance very much to Quebec market both any Community that the inhabitants might have to dispose of the distance is such that it takes on third of what they might have to dispose of for their traveling expenses But if a road was taken through Buckland it would be the means of settling the said township which ought to have been settled many years ago and would be settled very quick if it was given on reasonable terms, this would be great encouragement for the offspring of the emigrants that has been toiling on Buckland those many years in hardship and difficulty to earn bread and clothing for their little families if those lands was given on reasonable terms it might be the means of preventing the young people from going to the United States or other parts of the world to look for food and raiment</i></p> <p><i>Those lands in my opinion is not worth more than £5 per 100 acres</i></p> <p><i>The only road of communication thro' East Hampton in the County of Dorchester between Sand & 4 Miles of this road is not fit for either foot people or horse at some season of the year this road commences at post the 14 between Sand & 4 ranges and runs parallel with the river Chatham through the 9-10-11 ranges of Hampton until it intersects with the township of Buckland at the river day bar Choad where there was a bridge built by government and is taken away and two bridges going to the township of were last fall by the flood a part of the road that this road goes through is such lands as the inhabitants was obliged to abandon</i></p>
