<p>I have divided the Parish of St. Gabriel de Valcartier into 1 Personal Enumeration District, the blanks headed "Personal Census Enumeration District No. 91" and pages from 1 to 30 inclusive form the said Personal Enumeration District which is bounded on the south by the Parish of St. Ambrose, on the east by the Township of St. Roch, on the west by the Seigneurie of Lacambault, and on the north, so far as has been surveyed, the River Jacques Cartier, into the Parish, the scenery very pleasant and picturesque various other small streams are in abundance, the parish is divided into the 1-2-3-4-5<sup>th</sup> Concessions, and part of the 6<sup>th</sup> Concession, and these Concessions are again subdivided into No. 1. &amp;c. N.W. side of Riviere aux Pins, &amp; No. 1. 2. 3. S.E. said River which (with an irregularity of the No. 1. to 5. on the Blanks) has cost me incredible pains to effect a good Census. I attempted to divide the parish into 7 Enumeration Districts in accordance with a sort of division which has been made in reference to School Districts (which was the cause of the writing on the heading of the Blanks) but I found that such a mode of procedure, would result in great confusion, the first tree was cut down in 1816 the progress of the Parish or Settlement has always been still is greatly retarded from the imperfect state of the Roads, as refers to the settlers on the south east side of the River Jacques Cartier, (and in reference to the settlers on the north west side of said River) the get more the imperfect state of the Roads, and want of a Bridge across said River. In the Parish there is one Roman Catholic Church built of wood capable of accommodating about 300 persons, there is also a splendid new Church of Stone of the Gothic order of Architecture in progress, there are erected upon a portion of land of about 60 acres, a Donation from the late St. John's Bay, there is also a Protestant Church (English) of wood capable of accommodating about 200 persons erected upon 1 acre of land a Donation from the late Honorable Mr. Weller, and likewise there is a Presbyterian Church capable of accommodating about 150 persons (part) erected upon a portion of ground of about 30 acres a Donation also from the aforesaid Donator there is a small new Manse in progress, the general character of the soil is variable, answers the various purposes of agriculture very well, with judicious Management when the seas are favourable, there are 4 sawmills within the settlement, I could not arrive at any correct information respecting them the importance of their produce is very highly, there is also an Oatmeal Mill, the Miller pays 25 cents per m, and has received the sum of 2,325 - product of his labour, cost of the Mill, 1,900 - 12 hands usually employed, the owner of one of the above sawmills told me that he had given the necessary information to the Enumerator of the Parish of St. Ambrose, there is 1 Thrashing Mill in the Parish of 2 horse power, cost 250. There is one Stone dwelling House in the settlement, there is a small inn or tavern in some of the columns 31 respecting the Houses as not being inserted in the corresponding lines of said columns. There is one Post Office in the Parish - 3 Schools in operation under control of the Board of Education. The fees aid for various repairs of School Houses not being obtained by Valcartier for some years past renders the School Houses rather uncomfortable. The parish contains 649 Roman Catholics, 453 Protestants (English) 290 Presbyterians 763 males, 637 females, farmers 92 labourers 170, B. Canadian 821, F. Can. 75, the whole number of souls in the Parish 1460, of males 678, Fem. 782, Males 10, Fem. 14, usually attending School 75 males 51 females.</p> <p>The Blanks headed Agricultural Census, Enumeration District 90 and pages from 1 to 5, inclusive form the Agricultural Census of the Parish of St. Gabriel de Valcartier (commonly called the Settlement of Valcartier) the writing on the heading of these Blanks is accounted for as above. The quantity of land held by the Occupiers, Amounts to 29,649 ac. more Cultivation 9,642 ac. under 100 ft. 6,911 ac. under 100 ft. 2,734, under 100 ft. 2,000 ft. 279 ac. 30,415 B. Bushwood 127 B. potatoes 79,857, Turnips 2,613, Hay 39,700 hay, 165,090 B. Wood 9,627 B. Cages 770 Felled cloth 1161 yd. Flannel 126 yd. Hops 11, Timothy seed 3, 1/2 B, Corn 13 Bush</p>
