| 39 | 40 | 41 |
| | | <p>The persons whose names are entered on this and the following sheet are living in the rear of the western part of the Township and in the summer season they are almost isolated from the other parts of the Township in consequence of an intervening swamp through which there has hitherto been no road, in the summer. But I am happy to state that there is a road now in course of construction and that these people have the prospect of going to the front direct instead of being necessitated to several miles round through the adjoining Township. This may in future be a very important road as it is in a direct line with the great road referred to on Agriculture sheet No. 2, and has its terminus in the immediate vicinity of a very valuable Mineral Spring which possesses medicinal qualities of no ordinary kind if the testimony of those persons who say they have been benefited by the use its water can be relied upon. I would observe that this Spring is located in the front of the Township of Winchester and is so far as I know little known.</p> |
