		<p>The Mr Martin McTherens, Chisholms & badders are of the first settlers U.C.</p> <p>In my opinion much good might be done to Education were the school superintendant to spend three fourths of the time spent by them now on visiting schools - as school inspectors, that is to visit heads of families when & where they would consider it necessary to explain to the people the provisions and intention of the Legislature with regard to the present school act - the reason - being that many parents to their children have they employ men as teachers, but such as they knew to be capable & had experience or intended to follow that profession, even were they to give them few Pennies more salary, the advantages and the systems of education the great evil they were entailing upon their offspring by allowing them to grow up, or spend their golden years without common or ordinary education, perhaps at a time when they were of no other earthly use - upon such & many other matters belonging to a good system of education many of the people as yet seem to be ignorant & misinformed & school superintendants may but seldom meet with such in the school house -</p> <p>I have thus far been speaking of a class of people I considered able to do more than they do for educating their children - but I met another class of people whom I may say gave as an excuse for not sending their children to school that they had no means to pay the school fees, although they would send to school -</p> <p>Continued on sheet No. 112</p>
