		From these sheets it may be easily perceived, that such a class of people are by no means few or insignificant in this Township, such as poor Labourers, especially amongst the Irish, Scotch, & Irish every one of these poor people would say they had enough to do to feed and clothe their children without sending them to school - As the parents of these poor children are almost without exception without any education themselves it is to be expected they think their children may do well enough without it also.
