		<p>This Township on the 1<sup>st</sup> and 3<sup>rd</sup> Concessions are generally good the soil being a light clay loam and from the 3<sup>rd</sup> to the 8<sup>th</sup> Concessions the land is quite rolling the soil being generally loamy, and the remainder of the Township the land is of excellent quality and with few exceptions there is but very little marsh with regard to water this Township enjoys many advantages second to none in this County with regard to the roads the roads run from the 1<sup>st</sup> to the 3<sup>rd</sup> Concessions are generally open and but the remainder of the Township the roads are in a very miserable state the majority of the remaining side runs are in the same state, between the 3<sup>rd</sup> &amp; 3<sup>rd</sup> Concessions the road is partly cleared out, but the remainder of the Concessions roads are almost impassible.</p> <p>And in consequence of there being no heading for fall what is left on which I consider highly necessary to have been done I think could not give any returns if it were not for the opinion that at least 1/2 part of the 1<sup>st</sup> &amp; 8<sup>th</sup> Concessions if this Township were under that crop at present.</p>
