one Grist Mill by water two Carding machines by the same power and one Distillery	7	This mill and machinery is erected on the stream called Cleverick the finest and best and almost the only literary stream in the County of Kent. There is also one factory at the mouth of the creek and close on the banks of Lake Erie these mills are south of Talbot Road there is not a doubt but that there would have been a very fine village on the banks of the creek only for the Indian reserve if this Township you will know that Talbot Road is only one mile and a quarter from the banks of Lake Erie where it opens the creek. You will also observe that the position Indians have in these parts covers forty thousand acres of this Township. And at the same time observe there is only one hundred and fifty souls belonging to the tribe for there is more of the inhabitants of this Township labour under a very great business here at present on account of the post office being all together out of the business part of the Township.
