

Information as to Mills, Factories, &c., &c., their cost, power, produce, &c.	Number of persons usually employed therein.	General Remarks of the Enumerator.
39	40	41
		In reaching the Northern Boundary of this Township one of two courses must be taken. the one is to push direct through the woods which would require a coupas, the other is to pass round the East or west Boundaries at the south west corner of the Township there is a pretty large lumbering establishment the same parties also have another shantie in Darling but farther east. this makes two, there is another farther east still this makes three, all the timber taken out of Darling on the North goes down by a Northern route but there is one shantie on the south west that send their Timber down the Clyde this stream passes through this Township until it enters the Township of Larch.
