

| Information as to Mills, Factories, &c., &c., their cost, power, produce, &c.  | Number of persons usually employed therein. | General Remarks of the Enumerator. |
|--|---|------------------------------------|
| 39   | 40  | 41                                 |
| <p>Section No 4 is comprised of the 6<sup>th</sup> 7<sup>th</sup> and 8<sup>th</sup> Conception receiving from the Western Boundary. It is well watered, The Solon River enters the Section on Lot No 20 in the 8<sup>th</sup> Con - then runs a South westerly Course through the Township leaving it in the 6<sup>th</sup> Conception on the Western Boundary. It is quite a large and desirable stream it works three saw Mills one grist mill one Pounding Machine and fulling Mill all within the Bound of the Section One New Saw Mill stand on Lot No 1 in the 6<sup>th</sup> Con you will not find it in the Census Book. I believe the proprietor does not live in the Township therefore I did not visit him. The Otter Creek enters the Section on Lot No 19 in the 8<sup>th</sup> Con runs southerly direction and empties in the Solon River on Lot No 10 in 6<sup>th</sup> Con where it takes a desperate leap of about 50 feet which can be heard for several Miles. This Creek enters the Section in the 7<sup>th</sup> Con on the Eastern Boundary runs a west Course emptying in the Solon River on Lot No 15 in the same Con. There are several Bad Swamps in the Section one called the Willow Marsh lies on the Western Boundary in the 7<sup>th</sup> Con where the water in high water time stands about 10 feet over the surface another called the Ground Pond is in the 8<sup>th</sup> Con on Western Boundary and extends to Lot No 7 where it sinks and is supposed to rise again on Lot No 8 forming a large and beautiful Spring which empties in the Otter Creek. The Sand is very Rocky and Broken along the Banks of the Solon River. The Sand of the 6<sup>th</sup> 7<sup>th</sup> &amp; 8<sup>th</sup> Con on the Western Boundary is of not much Value on account of the lime stone Rock that abound in that part. The Road over a Bad State. The Average Value of Sand is about One pound 10/- per acre including the improvements.</p> |   |                                    |
