<p><i>This Manufacturing establishment is situated on the river Thames near the north west extremity of the Township of Westminster. Consisting of the brick mill with two run of stones, at the present time the mill is in a dilapidated state from the effects of the flood in the river last year. The proprietor had just completed a new dam before the flood, which nearly swept it all away. Since the mill has undergone a temporary repair but does small business owing to a deficient supply of water.
