		<p>The population of the Townships of Mara &amp; Rama is scattered over an area of not less than 60 miles square. The inhabitants at the north end of Mara, by far the most numerous, have no direct roads to their dwellings, and most of them are so far removed from each other that it is impossible for a person, unacquainted with the locality, to discover their clearings without a guide to conduct him through the bush. In the spring and fall, many of the inhabitants are prevented except by the swamps that surround them.</p>
