<p><i>None</i></p>		
<p><i>Explanation</i></p> <p>S.M. = Town of Mitchell (an unincorporated village)</p> <p>N.M.R. = West Mitchell Road</p> <p>E.M.R. = East do</p> <p>N.S.R. = North James Road</p> <p>S.S.R. = South do</p> <p>W.B. = Western boundary</p> <p>P. = Part lot</p> <p>P.L. = Park Lot</p> <p><i>Being the designations given in the titles</i></p>		
<p><i>District No. 2</i></p> <p><i>Township of Fullarton</i></p> <p><i>County of Perth</i></p>		
<p><i>The undersigned enumerator in closing his labors would beg to remark that, as soon as he examined his sheets he assumed to him that there was an oversight in having no column for either fallow ground that is land now under fallow but which bore no crop in 1851 or for acres of meadow. And to put such land in the column for Cultivated land would prevent the agreement of the columns as contemplated in the instructions, there was therefore no alternative but to return fallow ground as wild land, the acreage of meadow was included in the column for pasture, so that the quantity returned as pasture includes all land under grass, and of the quantity returned as wild land a certain part will be fallow land.</i></p> <p><i>The crops of the 2^d Division will admit of the same description viz. rye, wheat, barley, clay soil mixed with limestone gravel, forming a rich land desirable soil, and capable of producing far heavier crops than these returns will show. The lightness of the crops may be attributed to various causes viz. rust, cold and variable climate, to which the much spring wheat which is subject to many casualties, and to want of draining and proper cultivation.</i></p> <p><i>Education is somewhat neglected here being but two schools in this Division but is beginning to receive more attention than formerly, Crime is but little known.</i></p> <p><i>Wm. Rath</i> <i>Enumerator</i> <i>2^d Division Fullarton</i></p> <p><i>N.B. No Obey man of any denomination settled in the above Division N.R.E.</i></p>
